

# **PROJECT FACT SHEET** February 8, 2007

**PROJECT:** Leeper Park Island, South Bend, Indiana Section 14

**DESCRIPTION:** Leeper Park Island is located in the St. Joseph River in the City of South Bend, Indiana. Two public water supply wells which provide drinking water for City residents are located on the island. A stone wall surrounds the island to protect for the wells and the island itself. However, erosion along the eastern shore of the island had undermined portions of the wall, resulting in the destruction of approximately 250 feet of original wall. Loss of the wall resulted in severe erosion farther upland, threatening the public water supply wells. The subject project rebuilt these failed portions of wall to prevent future undermining of other areas along the eastern shoreline of the island.

**CONGRESSIONAL INTEREST:** Donnelly (IN-2); IN Senators Bayh (D) and Lugar (R)

## **LOCATION MAP & PICTURE:**

**NON-FEDERAL PROJECT SPONSOR:** City of South Bend, IN (POC: Carl Littrell, 574-235-9251)

**PROJECT AUTHORITY:** Section 14 of the Flood Control Act of 1946, as amended.

## **FUNDING:**

	<u>Total</u>	<u>Federal</u>	<u>Non-Federal</u>
